WORK EXPERIENCE

Full Stack Engineer | Upwork (Freelance) May 2021 - Present

Remote

- Top Rated freelancer with 100% Job Success Score, consistently earning 5-star reviews across 20+ projects.
- Delivered fintech apps, healthcare platforms, and SaaS products using React, Next.js, Node.js, and AWS.
- Recognized by clients for fast delivery, proactive problem-solving, and clear cross-timezone communication.

Senior Frontend Developer | Mainteny Jun 2022 - Aug 2025

Remote, Germany

- Built and maintained user-facing features using React, TypeScript, and Material UI for a B2B SaaS platform.
- Wrote end-to-end tests with Cypress and Playwright, reducing production bugs and improving release confidence.
- Optimized application performance, achieving measurably faster load times and smoother UX.
- Collaborated with designers to translate Figma mockups into pixel-perfect, responsive code.
- Conducted code reviews and contributed to sprint planning, improving team velocity and code quality.

Full Stack Engineer | Foretheta Nov 2019 - Apr 2021

Remote, USA

- Revamped SaaS products Billgist and Traindex, building authentication, AWS integrations, Stripe billing, and dashboards using React, Python, and DynamoDB.
- Architected an ETL data lake with AWS S3, Athena, Lambda, API Gateway, and DynamoDB.
- Implemented comprehensive test suites (Jest, Cypress, Pytest) and automated CI/CD with GitHub Actions.
- Improved SEO and performance through memoization, caching, and code-splitting techniques.

Web and Mobile Developer | Expertizo Jan 2019 - May 2019

Karachi, Pakistan

- Developed web and mobile applications using React, React Native, and Redux with Firebase backend integration.
- Integrated Firebase analytics, crashlytics, and authentication into the CareClinic healthcare app.
